

# Software Developers and Supporters

## PLZEN Region

**PDM Technology** is an innovative and unique software company with a primary customer base in international manufacturing groups.

The company, headquartered in the NOVI Science Park in Aalborg, Denmark, and with a subsidiary in Atlanta, GA, USA, is looking for software developers, system designers and supporters, to be part of the software team in our subsidiary in the newly established Science Park in Plzen,

PDM technology delivers cutting edge ERP based PLM (Product Lifecycle Management) solutions to Microsoft Dynamics AX and NAV platforms, with integration to a broad range of mainstream 3D/2D CAD solutions.

You will be part of a highly skilled and second-to-none team which shall place the Plzen software team in a pivotal role in PDM technology's growth. The team in Plzen is expected to grow to at least 25 people in 2009.

The position is an excellent opportunity for the right person to join a vibrant and energetic software company which is expanding globally. Your role will be part of the software team in Plzen developing advanced software solutions based on the newest Microsoft platforms.

We look forward to your application, (preferable in English).

Please send this to CEO Jorgen Schionning Larsen ([jsl.mgmt@pdmtechnology.dk](mailto:jsl.mgmt@pdmtechnology.dk)).

### We expect from you:

- Degree in Mechanical/Production/Software Engineering
- A desire to work with advanced software development and coding
- Familiarity with 3D, CAD, PDM/PLM related systems and technologies
- Experience in at least one programming language e.g. C#, Java, C++
- Skills in speaking and writing English
- To be a good team player

### We offer you:

- An interesting and challenging job in an international organization
- To be a part of a team in a company in its growth phase.
- Good salary and other benefits
- To be part of a team with experienced colleagues with similar background as you
- To work with the newest IT platforms
- To develop world class IT products
- Continuous development of your professional skills
